OBLIVION****About the movie**

Oblivion is a 2013 American post-apocalyptic science fiction action film based on Joseph Kosinski's unpublished graphic novel of the same name. The film was co-produced and directed by Kosinski. It stars Tom Cruise, Morgan Freeman, Andrea Riseborough, and Olga Kurylenko. The film was released in the U.S. on April 19, 2013. According to Kosinski, Oblivion pays homage to science fiction films of the 1970s. In 2077, sixty years after a war with extraterrestrials that devastated Earth, humanity has relocated to Saturn's moon Titan via a giant space station called the Tet. Gigantic offshore fusion energy generators drain Earth's oceans to power the colonies on Titan.
